IZUMI PRODUCTS COMPANY

Worldwide Voltage

Rev.

60 YEARS AT THE FOREFRONT
OF GROOMING TECHNOLOGY

Four-Blade Combination—Even Smoother, Even Closer

Premium Sharp-Edged Blades

Sharp-edged inner blades cut hair smoothly and powerfully.

Newly Developed Multiway Foil Screen

Blades have six different directional patterns, arranged to cut hair growing in all directions most effectively.

11% Reduction in Shaving Time*

With a combination of four blades—two types of blades and newly developed trimmers for unruly hair—contact area with the skin is increased by 37% for reduced shaving time.

* Based on monitoring and comparison with our conventional models.

4 Blades Made in Japan Ni-MH

FR-750

- 100–240V, 50/60Hz worldwide voltage
- Mains/rechargeable (cord/cordless)
- 60 min charge time for 7 days of shaving*
- Washable
- Battery remaining indicator, low battery/charging/full-charge indicator

Charge Indicator

LED lights on the half-mirror panel forming the shaver's metallic exterior indicate how much charge remains, when the shaver is being charged or operated, and when charging has been completed.

3D Flexible Floating Head

The head moves side to side 16 degrees and front to back 24 degrees, and the four blades float independently up to 3 mm to smoothly follow the skin. The 3D flexible floating head can also be locked into three positions: front, center, and back.

3 Blades Made in Japan Ni-MH

FR-730

- 100–240V, 50/60Hz worldwide voltage
- Mains/rechargeable (cord/cordless)
- 60 min charge time for 10 days of shaving*
- Washable
- Battery remaining indicator, low battery/charging/full-charge indicator

Charge Indicator

LED lights on the half-mirror panel forming the shaver's metallic exterior indicate how much charge remains, when the shaver is being charged or operated, and when charging has been completed.

3D Flexible Floating Head

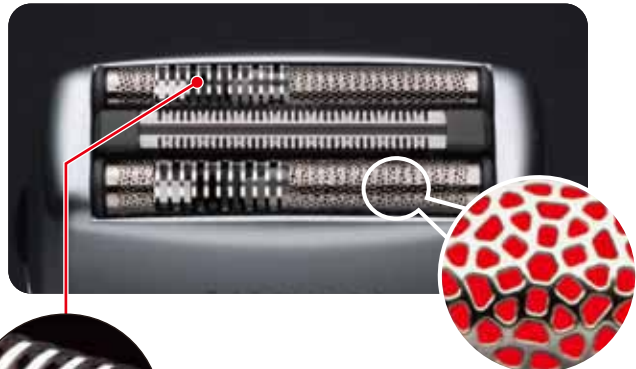

The head moves side to side 16 degrees and front to back 21 degrees, and the three blades float independently up to 1.5 mm to smoothly follow the skin.

*1 After shaver is fully charged once and used for 3 min/day.

*2 Meets IPX7 waterproof standard: protected against water immersion for 30 min at a depth of 1 m.

Newly Developed Multiway Foil Screen
Blades have six different directional patterns, arranged to cut hair growing in all directions most effectively.

Superior Sharp-Edged Blades

New, improved blades are durable and sharpened to nanometer precision for a smooth, freshly shaved finish.

Floating Foil Screen & Center Slot Trimmer

Each of the three blades moves up and down 1.4 mm to smoothly follow the skin and eliminate any remaining whiskers.

3 Blades Made in Japan Ni-MH

FR-500

- 100–240V, 50/60Hz worldwide voltage
- Mains/rechargeable (cord/cordless)
- 60 min charge time for 8 days of shaving*
- Washable
- Battery remaining indicator, low battery/charging/full-charge indicator

Flexible Floating Head

The head moves front to back 18 degrees to smoothly follow the skin and eliminate any remaining whiskers.

Washable

Rinse any time under running water.

Charge Indicator

Indicator lights show how much charge remains and when a charge is needed, underway, or complete.

Pop-Up Trimmer

To shave sideburns, moustaches, or beards.

Single Blade Made in Japan Ni-MH

FR-100

- 100–240V, 50/60Hz worldwide voltage
- Rechargeable only
- 8 hr charge time for 8 days of shaving*
- Washable
- Charging/full-charge indicator

Washable

Rinse any time under running water.

Charge Indicator

Indicator light shows when a charge is underway or complete.

Pop-Up Trimmer

To shave sideburns, moustaches, or beards.

Single Blade Made in Japan Ni-Cd

FR-140

- 100–240V, 50/60Hz worldwide voltage
- Plug-in type
- Rechargeable only
- 60 min charge time for 9 days of shaving*

Plug

360-Degree Flexible Floating Head
allow dual-track blades to follow facial contours smoothly.

Floating Cutters

Each of the floating cutters moves independently to smoothly follow the contours of your face, for a perfect shave.

- DLC*4-Coated Dual-Track Blades**
assure an efficient shave, free of friction and irritation.
- Titanium-Coated Inner Blades**
give you a sharp new shave—every time.

Universal Floating System

Each of the floating cutters adjusts to the contours of your face for a perfect shave.

- Dual-Track Blades**
Dual-track blades cut efficiently. The high-torque motor and triple rotary heads cut even stubborn whiskers without leaving gaps.

Rotary Head Made in Japan Ni-MH

RR-400

- 100–240V, 50/60Hz worldwide voltage
- Mains/rechargeable (cord/cordless)

SHAVER

2 Blades

Made in Japan

LB-11

- Battery operated (LR6 [AA] x 1)
- Washable
- Rubber fin

Floating Blade

The blade floats up and down to follow the skin, for a beautifully smooth finish with no unshaved hairs or scratches.

Rubber Fin

The rubber fin edge stretches the skin before the blade, making it easier to cut stray hairs at the root.

Slide-Up Trimmer

The floating trimmer shaves even long unwanted hair perfectly.
